

**UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF RHODE ISLAND**

CHARLENE LIBERTY, JOHN DAPONTE,
JOHN DAVIS, DUANE GOMES,
ADAM HANRAHAN, and CHARLES KENNER,
on behalf of themselves and all others similarly situated; and
DISABILITY RIGHTS RHODE ISLAND,
on behalf of its constituents,

Plaintiffs, C.A. No. 19-cv-0573-JJM-PAS

v.

RHODE ISLAND DEPARTMENT OF
CORRECTIONS; PATRICIA COYNE-FAGUE,
in her official capacity as the Director of the Rhode Island
Department of Corrections; MATTHEW KETTLE,
in his official capacity as Assistant Director
of Institutions and Operations; and
BARRY WEINER, in his official capacity as
Assistant Director of Rehabilitation Services,

Defendants.

DECLARATION OF JOSEPH V. PENN, MD CCHP FAPA

I. Background and Qualifications

I, Joseph V. Penn, MD, CCHP, FAPA, declare under penalty of perjury:

1. I am over the age of 18 and fully and legally competent to make this declaration. I have personal knowledge of the statements and facts contained herein.
2. I am a licensed and triple board-certified psychiatric physician, a Doctor of Medicine (M.D.) and a Clinical Professor of Psychiatry at the University of Texas Medical Branch (UTMB), Galveston, Texas.

3. I have dedicated my career to direct patient care, clinical and administrative work within juvenile and adult correctional settings for approximately 23 years. A true and accurate copy of my curriculum vitae, updated as of March 5, 2022, is attached hereto as Exhibit A.

4. I occasionally serve in a variety of capacities as a forensic psychiatrist consultant and expert witness, for example, in civil matters involving jails, prisons and other correctional and forensic psychiatry and community settings, but only in a limited role, and that work compromises less than 10-20% of my total work and income.

5. I have been retained in correctional litigation specifically as a plaintiff versus a defense expert, and as a consultant to a Monitor and member of a Monitoring Team. I have also been retained in criminal matters as a prosecution, defense, and court ordered expert. I am committed to honesty and to strive for objectivity throughout my correctional and forensic psychiatric work.

6. I graduated from medical school at the University of Texas Medical Branch (UTMB), Galveston, Texas, and completed four years of general psychiatry training and two years of child and adolescent psychiatry at Brown University, Providence, Rhode Island, and one year of forensic psychiatry, at Yale University, New Haven, Connecticut.

7. I am triple board certified by the American Board of Psychiatry and Neurology (ABPN) and must undergo maintenance of certification and board re-certification for each specialty board every 10 years.

8. I am licensed to practice medicine in the state of Texas.

9. I am the Director of Mental Health Services for UTMB Correctional Managed Care, a full-time role that I have served in since February 2008. I oversee the provision of

psychiatric, psychological, and mental health services to approximately 80% (approximately 110,000 adult offenders) of the entire Texas state jail and state adult prison population, within the Texas Department of Criminal Justice (TDCJ), across a variety of TDCJ facilities statewide and varying custody levels. I also oversee the delivery of psychiatric services to approximately 800 youths housed statewide within five state juvenile correctional institutional facilities within the Texas Juvenile Justice Department (TJJD).

10. I maintain a private forensic psychiatry practice where I serve as an in-state and national consultant regarding correctional and non-correctional mental health care delivery and standards of care.

11. I was appointed to the American Board of Psychiatry and Neurology (ABPN) Forensic Psychiatry Maintenance of Certification committee and have been tasked with writing specific examination questions pertaining to forensic psychiatry and juvenile and adult correctional psychiatry.

12. I have substantial additional experience, including publications and serving and chairing many boards and committees, serving on the editorial board and as a reviewer for the *Journal of Correctional Health Care*. I also serve as a reviewer for several other journals, including, but not limited to the *Journal of the American Academy of Psychiatry and the Law*, and other medical/psychiatric journals.

13. I am the immediate past Chair and serve as the American Academy of Psychiatry and the Law (AAPL)'s representative to the National Commission on Correctional Health Care (NCCHC).

14. I have achieved and maintained specialized certification as a Certified Correctional Health Professional-Mental Health (CCHP-MH) since 2004, approximately 18 years, by NCCHC. This requires passing of a written national examination, demonstration of proficiency in national correctional health standards, annual attestation of continuing medical education credits, full medical licensure without restrictions, and annual re-certification.

15. I have undergone specialized initial and ongoing training and served as a physician surveyor for the National Commission on Correctional Health Care (NCCHC), a national organization that provides health care accreditation of jails and short-term detention facilities, prisons, juvenile facilities, and opioid treatment programs in correctional facilities. I have surveyed several large metropolitan county jails and short-term detention facilities [e.g., US Immigration and Customs Enforcement (ICE) facilities] nationally (these are listed in my CV).

16. I am the past chair of the NCCHC accreditation committee and continue to serve as a committee member. I have served on several NCCHC standards revision task force groups to revise the NCCHC health care standards: NCCHC Standards for Health Services in Jails and Prisons, NCCHC Standards for Mental Health Services in Correctional Facilities, and the NCCHC Juvenile Health Standards (I serve as the current chair of the juvenile standards revision work group). This demonstrates my current knowledge and direct involvement in the provision of psychiatric and mental health care to detained/incarcerated juvenile and adult offender populations.

17. I co-authored the AAPL Practice Resource for Prescribing in Corrections (2018) and am also an author on a revised version that is in press.

18. I specialize in the practice of child and adolescent psychiatry, general psychiatry, and forensic psychiatry, and moreover correctional psychiatry.

19. I have been qualified as an Expert Witness in various State and Federal Courts, in the field of forensic, child and adolescent, and correctional psychiatry (1998-present), and in cases similar to this case. I have served as a court-appointed expert in state and federal courts. I have also served as a consultant to the State of California Department of Justice, Office of the Attorney General, regarding state prisoners in the California Department of Corrections and Rehabilitation, and other Departments of Justice in Nevada, Arizona, Georgia, and Texas.

20. As reflected in my CV, I have been previously involved in correctional health care initial NCCHC accreditation or subsequent re-accreditation on-site, blended, versus virtual surveys (the latter two were necessitated during the COVID-19 pandemic and ensuing variants) surveys and focused reviews. In my full-time employment since 2008 in the State of Texas TDCJ state prison system, I have undergone and been involved in on-site facility American Correctional Association (ACA) audits, exit interviews, and panel hearings by ACA Commissioners (health care and custody professionals), and thus have direct working knowledge and experience regarding typical questions and requests asked by neutral, independent, objective ACA auditor staff.

21. In sections 9 on page 5 of his expert declaration, dated 3/15/22, Dr. Metzner wrote the following:

“I will seek information about the mental health of and care provided to *people with whom I speak* (emphasis added) as well as information obtained from relevant discovery documents...”

In section 10, on page 5 Dr. Metzner wrote, “I will limit *interviews* (emphasis added) with *incarcerated individuals to those who agree to speak with me* (emphasis added).”

22. In my opinion, and based upon my experience and training, Plaintiffs’ proposal in this case lacks the necessary specificity that would allow me to specifically opine on the appropriateness of the tour, and I have concerns about the impact their proposal would have on RIDOC, its staff and inmates in its care, custody, and control. As a general proposition I do not believe that Plaintiffs’ proposal to select staff and inmates to interview has any basis in medical/mental health practice or in sound correctional policies. Some of the deficiencies and/or matters not addressed in their proposal include, but are not limited to:

- A. It remains unclear what methodology will be employed, and specifically who will be involved and assist in identifying incarcerated individuals to be interviewed;
- B. It remains unclear how Dr. Metzner will specifically identify, approach, and gain individual consent to interview incarcerated individuals in the Rhode Island Department of Corrections;
- C. RIDOC serves as a blended jail and prison and houses both pre-trial (detained, non-sentenced) individuals who are awaiting legal resolution of their pending criminal prosecution. These “jail” detainees may be incarcerated for brief periods of times, hours, days, weeks, and thus may not be able to give reliable information on treatment service provision and availability and how to access these services. It is not clear—and it is important to know—whether pre-trial jail detainees will be excluded from these “interviews;”
- D. Dr. Metzner does not clarify the term, application of, or methodology of how he will obtain inmate consent, provide non-confidentiality warnings (since this is pertaining

to pending civil litigation, and in particular, who will be present when approaching individuals, and how and what they will be asked. In order to formulate an opinion about the facility tours, information about the potential risks and benefits, or lack thereof, to the jail and prison inmates who agree to be interviewed is needed, and Dr. Metzner provides none.

- E. In order to formulate an opinion about the facility tours, it will be necessary to know whether Dr. Metzner would be the one to approach and ask RIDOC inmates for their participation and to submit to an interview. It would be important to know the exact questions to be asked. There is a risk that should RIDOC inmates learn that there is pending litigation or possible class certification that the inmates may exaggerate or not be truthful in their responses. Thus, the self-report provided is problematic. In order to formulate an opinion based on that information, Dr. Metzner would need to verify/validate this information, and it is unclear how he could do that. It is unknown how many inmates Dr. Metzner proposes to approach and how he will attempt to select a representative sample by age, race, gender, and other demographic variables, and by housing/custody status.
- F. In order to give an opinion about the facility tours it would be critical to know what specifically Dr. Metzner would say to the inmate, and whether different questions would be asked to different inmate demographic groups. It would be imperative to know whether any other incentives, offers or promises would be made to a particular inmate. I would need to know whether there would be a representative sample of inmates receiving mental health care versus inmates not receiving such care, inmates

on or not on prescribed psychotropic medications, and a control sample of non-mental health caseload inmates.

- G. It is necessary to know whether Plaintiffs' attorneys will be involved or present when Dr. Metzner attempts to "interview" a RIDOC jail or prison inmate. Before considering a tour, and the possible risks to an inmate or group of inmates (e.g., females, or inmates with PTSD or trauma histories, and/or serious mental illness), I would need to establish how many people would be involved in the "interview" of the inmate, how many additional individuals observe the "interview," and in what setting it will occur. I should be permitted to sit in and observe these interviews.
- H. From his description, it is unclear whether Dr. Metzner will attempt to conduct a psychiatric evaluation and/or a mental status examination. It is unknown what else will comprise this "interview," and its anticipated duration. I have not seen any proposed specific questions that Dr. Metzner will ask—that would be critical to determine whether the "interviews" would be problematic. Plaintiffs have not indicated that Dr. Metzner will use any type of standard interview questions or a semi-structured interview process.
- I. It is not clear whether this will be a psychiatric diagnostic evaluation. It is not clear what specific methodology will be employed. It is not clear who else will be present during the interview. It is not clear what the duration of the interviews will be or where they will be conducted and what level of patient safety, confidentiality safeguards, and security will be provided.
- J. It is paramount that Dr. Metzner and others clearly delineate their purpose and role. Based on my experience, the on-site presence of plaintiff attorneys and outside non-

treating forensic psychiatrists and other custody plaintiff experts will likely be quickly communicated across the correctional facilities and poses a clinically significant risk of suspicion, mistrust, and will likely raise questions regarding the type and caliber of existing correctional health services and staff and the access to care and continuity of mental health services and psychiatric diagnostic and psychotropic medication treatment services that are currently available and being provided to pre-trial detainees and sentenced inmates across a variety of units/housing settings in the Rhode Island Department of Corrections. Because the health care is being delivered within a correctional setting, a congregate care setting where news/information travels quickly, there is an even more pressing need for patient confidentiality and privacy, and patient safety/clinical safeguards, to minimize any negative or resulting impact on current inmate patients (with or without mental disorders or serious mental illness) to maintain and/or develop trust and cooperation between the patient and existing health care staff, custody, and leadership staff.

23. When approaching non-incarcerated individuals outside of a traditional doctor/patient, psychotherapist/patient and other clinical treatment setting, for example a research setting, or a forensic evaluator/evaluee setting, there are additional risks of harm and resulting ethical duties and a critical need for patient protections that have resulted in rigorous and ongoing informed consent in clinical research. This is paramount in clinical research settings when reviewing the various possible risks, benefits, and alternatives to participating in a clinical research study. There is a well-established duty for forensic psychiatrists who are performing any civil, criminal, or other forensic evaluation to provide a non-confidentiality warning to the evaluatee, to confirm that the evaluatee truly understands

the roles, purpose, context, and non-treatment nature of the forensic evaluation, and to answer questions before further proceeding. Due to this occurring in a correctional setting, there need to be clearly determined non-treatment and non-confidentiality warnings (role, agency, what will happen with the information elicited/collected) provided to each inmate, ideally in the form of a signed/written consent. Information on inmates who decline to meet with Dr. Metzner should be collected. Consideration might be given to consider approaching them later to better understand and clarify their reasons for non-participation.

24. Due to the likelihood that particular inmate patients' names, ages, genders, ethnicities, dates of birth, RIDOC inmate numbers, and other patient identifiers, and information and statements provided by patients will be collected by Dr. Metzner, and shared with plaintiff attorneys, and that this information/data will likely be included in a forensic psychiatric report and could be utilized in litigation and future deposition or trial testimony. Correctional settings are inherently or pose a risk of being interpreted as inherently coercive settings. Thus, there need to be additional safeguards regarding how true and voluntary informed consent be obtained, and a non-confidentiality warning be administered. Unless these safeguards are in place, the interview process as described by Dr. Metzner is inconsistent with best practices and could cause harm to an inmate.

25. Additional serious ethical and potential role conflicts and other issues remain. If an inmate is psychologically vulnerable or psychiatrically unstable, or is demonstrating paranoia, suspiciousness, fearfulness, delusional thoughts, psychosis, and/or is otherwise clinically unstable, they may be unable to provide informed consent for a forensic psychiatric interview. Some individuals may not have a chronic psychotic disorder but

may have mood disorders, anxiety disorders, acute stress disorder or posttraumatic stress disorder (PTSD), substance withdrawal or other substance use disorders, borderline personality traits or disorders and/or other mixed personality traits or disorders, and may experience what appears to be a non-threatening interview as intrusive and may become acutely suicidal, engage in behavioral dyscontrol, agitation, self-injurious or self-harming behaviors, or otherwise decompensate/deteriorate. Other incarcerated individuals may have past physical, emotional, and/or sexual abuse or other types of victimization, other trauma histories, borderline personality disorder or other maladaptive personality traits or disorders, and therefore be at risk to deteriorate or decompensate when asked certain sensitive material/questions. During or after the interview the questions asked, or the interview experience alone may cause a vulnerable individual to deteriorate. If an individual discloses imminent risks of harm to self or others (e.g., suicidal, or homicidal ideation, intent, or plans) to Dr. Metzner or any of the Plaintiffs' representatives present during the "interview," there is no assurance that that information would be transmitted to RIDOC. The same concerns exist if the individual discloses other sensitive or clinically vital information that has relevance to RIDOC custody and/or treatment staff.

Under 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing Declaration is true and correct.

Executed on the 7th day of April 2022.

A handwritten signature in black ink, appearing to read "Joe Penn", with a long horizontal flourish extending to the right.

JOSEPH V. PENN, MD, CCHP, FAPA

EDUCATION

Undergraduate 1987 B.S. in Biology
University of the Incarnate Word (formerly Incarnate Word College), San Antonio, Texas
Honors: Alpha Chi, Academic All-American, Who's Who in American Universities & Colleges, Graduated Summa Cum Laude
Medical School 1992 M.D.
University of Texas Medical Branch, Galveston, Texas
Honors: Who's Who in American Colleges/Universities, Junior Marshal

POSTGRADUATE EDUCATION

2014 Management Certificate
Physician Leadership Academy
University of Houston Clear Lake &
University of Texas Medical Branch, Galveston, Texas

POSTGRADUATE TRAINING

Residency 1992-1996 General Psychiatry
1995-1996 Chief Resident
Department of Psychiatry and Human Behavior,
Brown University, Providence, Rhode Island
Residency 1996-1998 Child and Adolescent Psychiatry
Department of Psychiatry and Human Behavior,
Brown University, Providence, Rhode Island
Fellowship 1998-1999 Forensic Psychiatry
Department of Psychiatry
Yale University, New Haven, Connecticut

POSTGRADUATE HONORS AND AWARDS

- 1994 ACNP Program for Minority Research Training in Psychiatry
- 1994 Center for Mental Health Services Scholarship
- 1995 Mead Johnson Fellow, Association for Academic Psychiatry
- 1995 Laughlin Fellow, American College of Psychiatrists
- 1996 Outstanding Young Men of America
- 1996 Chester M. Pierce, M.D., Sc.D. Resident Research Award
- 1997 Lebensohn Award, American Association of General Hospital Psychiatrists
- 1997 Rapoport Fellow, American Academy of Psychiatry & the Law
- 1999 Presidential Scholar, American Academy of Child & Adolescent Psychiatry
